PROFESSIONAL SUMMARY

Lead Software Engineer with 12+ years of professional software development experience building and maintaining scalable web applications and backend systems.

- Strong background in backend and full-stack development with TypeScript, JavaScript, Node.js, NestJS, PHP, C#, ASP.NET Core, Python.
- Experienced in RESTful Web APIs, object-oriented programming, database-driven applications, distributed systems, microservices, Clean Architecture, Domain-Driven Design, SOLID principles, testing, and performance optimization.
- Hands-on experience with Microsoft SQL Server, PostgreSQL, MySQL, MongoDB, Redis, RabbitMQ, Docker, Kubernetes, AWS, and GCP.
- Experienced working in Agile/Scrum environments and collaborating with developers, QA, product managers, and other stakeholders.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, C#, Python, SQL

Backend: Node.js, NestJS, Laravel, Symfony, Yii, .NET Core, ASP.NET Core Web API, ASP.NET MVC, Express, FastAPI, Falcon

Frontend: React, Vue.js, Nuxt, Next.js, jQuery, Bootstrap, AngularJS

Databases: PostgreSQL, MySQL, Microsoft SQL Server, T-SQL, MongoDB, SQLite, Firebase

Messaging & caching: RabbitMQ, Kafka, Redis

Cloud & DevOps: AWS, GCP, Docker, Kubernetes, GitHub Actions, CircleCI, CI/CD, Git, Linux

Testing: Jest, Playwright, xUnit, PHPUnit, Codeception, pytest

Monitoring & logging: Datadog, ELK, New Relic, Sentry

Project management: Jira, Linear, Trello, Notion

AI tools: Cursor, Claude Code, Codex, GitHub Copilot

Automations: n8n, make.com

Architecture & design: Microservices, Modular Monolith, Clean Architecture, Domain-Driven Design, SOLID, DRY / KISS / YAGNI, TDD, RESTful Web APIs, Object-Oriented Programming, RAG (Retrieval-Augmented Generation)

PROFESSIONAL EXPERIENCE

Independent Software Engineer

Mar 2026 – PRESENT

Lead Software Engineer / Architect · Yerevan, Armenia

Stack: C#, ASP.NET Core, Python, FastAPI, async, OpenAPI/Swagger, pytest, PHP, Laravel, Symfony, JavaScript, TypeScript, NestJS, React, Vue.js, Nuxt, Microsoft SQL Server, PostgreSQL, MySQL, SQLite, Redis, RabbitMQ, Docker

- Designing and developing scalable web applications and backend services using C#, ASP.NET Core Web API, PHP, Python, and TypeScript.
- Developing RESTful Web APIs with ASP.NET Core, applying object-oriented programming, SOLID principles, Clean Architecture, and Domain-Driven Design.
- Designing and implementing database-driven applications using Microsoft SQL Server, PostgreSQL, MySQL, SQLite, and MongoDB.
- Implementing data access and business logic with a focus on performance, scalability, reliability, and data consistency.
- Identifying performance bottlenecks, debugging application issues, and implementing solutions to improve application reliability and responsiveness.
- Designing scalable backend architectures based on Microservices and Modular Monolith patterns.
- Developing integrations with third-party APIs and external services.
-

Implementing automated testing using xUnit and other testing frameworks depending on the technology stack.

- Implementing containerized deployments and CI/CD pipelines using Docker and GitHub Actions.
- Automating workflows and business logic using n8n and backend integrations.

Tidepool Labs Europe

Nov 2018 – Mar 2026

Lead Software Engineer · Yerevan, Armenia

Chalkboard (iGaming Platform) — USA chalkboard.io

Stack: TypeScript, Node.js, NestJS, TypeORM, Python, Falcon, React, Next.js, React Native, PostgreSQL, MongoDB, Firebase, Databricks, Redis, RabbitMQ, Jest, GCP, Docker, Kubernetes, GitHub Actions, Datadog, Sentry

MDsave (HealthCare platform) — USA mdsave.com

Stack: PHP 8+, Yii, TypeScript, Node.js, PostgreSQL, Databricks, RabbitMQ, Redis, React, GraphQL, Apollo, Codeception, Jest, AWS, Docker, CircleCI, Datadog

Architecture: Microservices, Modular Monolith

Methodology: Agile/Scrum

Principles: OOP, SOLID, Clean Architecture

- Designed and maintained scalable backend applications and services for high-traffic healthcare and iGaming platforms.
- Developed and maintained Web APIs and backend services.
- Worked with relational and NoSQL databases, including PostgreSQL and MongoDB.
- Investigated application bottlenecks, production issues, and performance problems and implemented solutions.
- Collaborated with developers, QA, product managers, and other stakeholders in an Agile/Scrum environment.
- Mentored developers and promoted best practices across the team.
- Ensured high code quality through best practices, thorough testing, and code reviews.
- Made architectural decisions to build scalable, maintainable, and efficient systems.
- Worked closely with developers and product managers to align on solutions.
- Solved complex technical problems with scalable solutions.

BigBrain

Sep 2016 – Oct 2018

Senior Software Engineer · Yerevan, Armenia

MDsave (HealthCare platform) — USA mdsave.com

Stack: PHP (5.6 - 7.4), Yii, TypeScript, Node.js, PostgreSQL, RabbitMQ, Redis, jQuery, Bootstrap, AngularJS, Codeception, Jest, GraphQL, Apollo, AWS, Docker, CircleCI, New Relic, ELK, Jira

Methodology: Agile/Scrum

- Developed and maintained backend services and Web API integrations.
- Developed and optimized complex features using PHP and AngularJS, ensuring performance and scalability.
- Worked with PostgreSQL, RabbitMQ, and Redis.
- Investigated production issues, performance bottlenecks, and application errors.
- Collaborated with product managers and developers to translate business needs into technical solutions.
- Contributed to architectural decisions, ensuring system reliability and maintainability.
- Provided production support for healthcare applications, including log monitoring, debugging, and performance tuning.
- Documented technical implementations, ensuring clarity and knowledge sharing within the team.

Web Projects

Mar 2016 – Sep 2016

Project Manager / Team Lead · Yerevan, Armenia

PayKickstart — USA paykickstart.com

Stack: PHP, Laravel, MySQL, jQuery, Bootstrap, AngularJS, Ionic, Cordova

MonkeyVPN — USA monkeyvpn.com

Stack: PHP, Laravel, MySQL, jQuery, Bootstrap, AngularJS, Ionic, Cordova

- Contributed to architectural decisions, ensuring system reliability and maintainability.
- Led a team of 5-6 developers and a QA engineer.
- Ensured high code quality through best practices, thorough testing, and code reviews.
- Documented technical implementations, ensuring clarity and knowledge sharing within the team.

I Like IT

Oct 2015 – Mar 2016

Web Developer · Yerevan, Armenia

NEON — USA neon-mobile.com

Stack: PHP, Laravel, MySQL, jQuery, Bootstrap, AngularJS

UserGrow — USA usergrow.com

Stack: PHP, Laravel, MySQL, jQuery, Bootstrap, AngularJS

Stack: PHP, Laravel, MySQL, ElasticSearch, PHPUnit, JavaScript, jQuery, AngularJS, Bootstrap, Jira, Trello

- On-site design and development of web applications in PHP/MySQL.
- Developed web services in PHP interfacing with third-party APIs.
- Integrated content management systems and payment processing gateways.
- Helped drive the definition of PHP and JS frameworks to support new features and refactor legacy elements.
- Worked with designers, frontend and project management staff to capture requirements for the functional elements of website projects.

Iguan Systems

Jul 2014 – Oct 2015

Web Developer · Yerevan, Armenia

Balloon in a Box — UK balllooninabox.co.uk

Stack: PHP, Laravel, MySQL, jQuery, Bootstrap, AngularJS

Balloons by Post — UK balloonsbypost.co.uk

Stack: PHP, Laravel, MySQL, jQuery, Bootstrap, AngularJS

Delivery Balloon — UK deliveryballoon.co.uk

Stack: PHP, Laravel, MySQL, jQuery, Bootstrap, AngularJS

FerBuy — USA ferbuy.com

Stack: PHP, Laravel, Payment API, Composer

eDriven Scoreboard — USA edrivensbdev.firebaseapp.com

Stack: JavaScript, Ionic, Cordova, AngularJS, Firebase, jQuery, Bootstrap

Stack: PHP, Laravel, CodeIgniter, Zend, Magento, MySQL, SQL Server, MongoDB, ElasticSearch, JavaScript, jQuery, AngularJS, Bootstrap, Ionic, Jira, Trello

- On-site design and development of web applications in PHP/MySQL.
- Developed web services in PHP interfacing with third-party APIs.
- Integrated content management systems and payment processing gateways.
- Helped drive the definition of PHP and JS frameworks to support new features and refactor legacy elements.
- Worked with designers, frontend and project management staff to capture requirements for the functional elements of website projects.

EDUCATION

State Engineering University of Armenia, Yerevan

Master's Degree — Technology of Machine Building · 2003 – 2008

LANGUAGES

Armenian — Native · **English** — Professional Proficiency · **Russian** — Professional Proficiency
